

**STRONGER**  
**(HINTON/ARCHER/NUMA)**

I never dared to dream  
Always played the part  
Somewhere in between  
my insecurity and my heart  
I used to hold my breath  
I used to bite my tongue  
until I found my reason

Wounds are the price for dancing with life but they make you stronger  
Look ahead leave the past (far) behind

I've got the courage to live, got the courage to stand  
Walk away from the past, now it's all in my hands  
I'm not scared anymore, look where I've ended up  
I feel stronger now, yeah so much stronger now

I've found the courage to breathe, found the strength to survive  
Now I follow my dreams I don't need to disguise  
I'm not scared anymore, look where I ended up  
I feel stronger now, so much stronger now  
So much stronger now  
Stronger now, stronger now

I used to hide the pain  
holding back the tears  
It used to hurt my feelings  
That was just then  
and I'm gonna make you surprised  
now I've made up my mind  
and I'm ready to be the best version of me  
let me show you

Wounds are the price for dancing with life but they make you stronger  
look ahead leave the past far behind

I've got the courage to live, got the courage to stand  
Walk away from the past now its all in my hands  
I'm not scared anymore, look where I've ended up  
I feel stronger now, yeah so much stronger now

I've found the courage to breathe, found the strength to survive  
Now I follow my dreams and I just can't disguise  
I'm not scared anymore, look where I ended up  
I feel stronger now, (yeah) so much stronger now

Stronger now, stronger now  
So much stronger now  
Yeah, so much stronger now  
Stronger now, stronger now  
I feel stronger now
